Capcom Co., Ltd. (Capcom) today announced that *Monster Hunter Rise: Sunbreak*, released on June 30, 2022, has sold over 10 million cumulative units globally.

*Monster Hunter Rise: Sunbreak* is a massive premium expansion for *Monster Hunter Rise* (which was released in March 2021). The title garnered high acclaim from players for its additional new locales, monsters, and never-before experienced hunting actions, as well as ongoing free title updates. Further, as a result of bringing the title to multiple platforms and expanding its user base globally, the game is still being enjoyed by many users even today, three years after its release, together with *Monster Hunter Rise*.

Capcom has worked to enhance the brand value of *Monster Hunter* through a variety of initiatives, including with *Monster Hunter Bridge*, an experiential attraction being exhibited at the Osaka Healthcare Pavilion in Expo 2025 Osaka, Kansai, Japan as well as the *Monster Hunter Orchestra Concert*. Furthermore, strategically coordinated pricing measures implemented in conjunction with the February 2025 release of *Monster Hunter Wilds* have proved highly effective, all of which drove *Monster Hunter Rise: Sunbreak* to surpass 10 million units sold worldwide.

Capcom remains firmly committed to satisfying the expectations of all users by leveraging its industry leading game development capabilities in order to create highly entertaining gameplay experiences.
